

Paleta Cart - US made!

The paleta cart is inspired by the Traditional Mexican paleta cart, a frozen pop staple loved by so many, with the quality expected by our clients.

Improved features:

- Standard all-white gel coat.
- Polyurathene insulated cooler with drain.
- 7 cold plates are included.
- Heavy duty caster w/ lock and 2 x heavy duty 20" bicycle tires.
- Umbrella holder w/ tightening screw
- Waterproof umbrella included (i.e. red/white shown above, available in a variety of colors).
- Optional umbrella choices are shown below.
- Optional - Custom color, full wrap, or logos.
- The cart is shipped in a 32 x 32 x 32" double-wall box strapped to a pallet.

Insulated cooler w/ drain fits 2 x 3 gallon ice cream tubs or 350-400 paletas. Great for cold drinks as well.	7 high-quality, food-grade cold plates are included. Drain for convenient cleaning.	The middle cold plate serves as a divider and holds the cold plates in place.

FAQs

How do the cold plates work? - The cold plates should be frozen 12-24hrs before their first use at -10 to -15F.

How long will my products stay frozen? - There is no exact answer to that. It depends on how often you open the hatch door, how hot it is, and the product you are serving. Usually, for deep frozen water water-based paletas, 6-8 hrs. Please be mindful when opening the hatch door, add two extra cold plates at the bottom if you wish, or use dry ice on very hot days.

How do I transport the cart? -

We recommend Northern Tools scooter platform. Great quality, easy to assemble, and the cart fits the platform perfectly. You can hitch it to larger cars with the appropriate installation. Weight bearing - 500lbs. Link [here](#). Free shipping!
