FAQ

- How many hours will my product stay frozen?

The colder your products are, the longer they will stay frozen. The following will also impact the amount of time your products stay frozen: outside temperature, water or dairy-based products, and the amount of time the hatch door is open.

- Can I use the cart for other products?

The cart has great insulation, so it can be used for drinks or to keep items warm as well.

- How do I transport my cart to venues?

The pushcart fits into most SUVs or minivans. Please see schematics for exact measurements.

Another option is a scooter platform that connects to a hitch.

- Can I use this cart to scoop ice cream?

We do not recommend this cart for scoop ice cream and the temperature cannot be controlled. Please see our [330PCE](#) cart.

Warranty

1-year limited warranty for defective parts (wheel, caster, umbrella, cold plates).

All the components are tested and verified to be functioning correctly before being shipped. If by any chance there is a problem, please take a picture and send it to us.

We will pay for the shipping of the defective part (label sent via email after our approval) and send a replacement part.
